Images: 956-1694; (item 3)

Years: 1831-1834; 1839

Notes:

I tried to transcribe the names of the official that signed the document, in about 80% of documents this was possible.

I tried to transcribe the names of the all people mentioned in the document. When I couldn't read a whole or part of the name I put in a "?"

Slaves, criados, and sirvientes are given the last name of the person they are traveling with and ending the last name with "?"

Some first names were abbreviated in the record (for example: M^a or Ant^o) I chose to spell them out (Maria and Antonio) in the transcription.

Some last names were abbreviated in the record, I wrote them as Men(z) instead of Men^z in the transcription.

The amount of information in each record varies greatly. Most records are for individuals, a small number are records of families.

Table 1: Number of Names Transcribed by Year of the Document
